Whether you "PAINT A LITTLE" or "PAINT A LOT" SEE US THE TIMES-VIRGINIAN

We thought you should know...

that in the area of medical malpractice suits, in one state, ten times as many million-dollar awards have been made since 1970 than in all the years before. The growing volume of such suits is adding more than $3 billion to the nation's annual cost of health care, according to HEW.

What's the point? The point is, this is just one of the many circumstances helping to push the cost of insurance beyond the reach of many.

You can help by talking to your neighbors and friends, writing your representatives in government and contacting your insurance commissioner. Or, by talking to us.

Then maybe you won't just blame your insurance company and your agent.

The more people who understand the problem, the better prepared we'll all be to work out the solutions.
